EXPERIENCE

Software developer

Inspirisys solution

📅 08/2022 - 06/2024 📍 Chennai, India

- Developed and maintained web applications using MERN stack (MongoDB, Express.js, React.js, Node.js)
- Designed databases with MongoDB to optimize storage of application data
- Integrated third-party APIs into existing systems using Python for enhanced functionality
- Created Flutter-based product analysis tools with a Python backend and MongoDB database
- Developed a student attendance portal using Angular and Node.js for secure user authentication and data management
- Hands-on experience with AWS for deployment and cloud services
- Built an employee management portal with secure login features (token expiry) using the MERN stack

EDUCATION

### B. Tech in Mechatronics Engineering

Srm university

📅 01/2018 - 01/2022 📍 Chennai

- | Graduated:
- Earned a 7.34 CGPA and completed relevant coursework in Mechatronics
- Engineering and IoT

PROJECTS

WAUHO

📅 03/2018 - 05/2018 📍 Chennai

I was an Electronics Engineer and designed layout for electronics components

- What was a successful outcome of your work? (e.g. Raised $3,000 for the charity)

MY TIME

- A Learning Angular
- B Working on React project
- C Learning Unreal Engine 5
- D Learning Autodesk Maya
- E Learning TypeScript
- F Learning Java

STRENGTHS

💎 **My Strength**

My strength is I believe my skills in quick adaptability in new technologies learning programming languages and collaborating can bring real value to any team I work with.

SUMMARY

SOFTWARE DEVELOPER Detail-oriented and passionate Software Developer seeking to leverage my skills in full-stack development, API integration, and cloud computing to contribute to innovative and scalable solutions. I am eager to join a dynamic team where I can apply my expertise in JavaScript frameworks, database management, and Agile methodologies to drive technical excellence and enhance user experiences. Talented Software Developer with over 2 years of experience in coding, debugging, and project management. Proficient in building scalable, efficient applications while working in Agile and Scrum frameworks. Strong expertise in front-end and back-end technologies with a focus on full-stack development. I am skilled in integrating APIs, database management, and developing IoT applications.

KEY ACHIEVEMENTS

💎 **Web Applications Development**
Led team to develop 5+ applications with MERN stack, improving efficiency by 20%.

💎 **API Integration**
Successfully integrated 10 third-party APIs, enhancing functionalities by 30%.

💎 **Employee Management Portal**
Implemented secure login system for 200+ employees using token expiry.
